

Mr. Prasit Sriadsadawutthakul

Vice President

Food & Water, SEA South East Asia

Alfa Laval

Mr. Prasit Sriadsadawutthakul is a seasoned executive in the food and water industry, currently serving as the Vice President - Food & Water, South East Asia at Alfa Laval. With a solid foundation in engineering and a strategic mindset, he has a proven track record of driving growth and innovation.

His diverse experience spans roles at prominent global companies in the food and packaging industries. As a Commercial Director at a leading packaging solutions provider, Mr. Prasit demonstrated his ability to lead teams and deliver results. His tenure at a renowned food processing equipment manufacturer included managing regional sales operations and business development, where he cultivated strong relationships with customers and partners across Asia and Oceania.

Mr. Prasit's educational background complements his professional achievements. He holds a Bachelor's degree in Engineering from King Mongkut's Institute of Technology Ladkrabang in Thailand and a Master's degree in Industrial Engineering with a major in Economics of Innovation from Chalmers University of Technology in Sweden. This combination of technical expertise and strategic thinking equips him to address the complex challenges and opportunities in the sustainability and food technology sectors.

As a guest speaker at the Sweden-Thailand Sustainable Development Forum in the Sustainability Expo 2024, Mr. Prasit will bring his unique perspective and insights to the discussion on sustainable practices and innovation in the food and water industries. He will share the example from Alfa Laval's edible oil sector.
